

Special version with Rotating Disc 10.22100ff.

**Play value**

Our Pentagonal Tower on Stilts is an eye-catcher thanks to its striking design and is well suited to give play spaces a special character and an unmistakable identity. The dense wooden cladding is especially inviting to hide in and spy from. It also offers the opportunity to experience height and enjoy the view. If supplemented with one or more slides, exercise activities and play pleasure will be even more intense. It is also possible to create a little town by connecting several towers with tunnels.

**Pentagonal Tower on Stilts**

**Fundamental characteristics**

- Reaching and experiencing height
- Can be combined with open slides and tunnel slides, connection tunnels, suspension bridges, rope bridges and much more

**Recommended for**

- School children
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar
- Public play areas without supervision, such as playgrounds, parks or similar

**Order No. 3.20860**

- 1 Roof

**Installation information**

Surfacing requirements corresponding to a fall height of  $\leq 3.00$  m (please refer to price list for more detailed information)

Foundations  
 5 items 60 x 60 x 60 cm  
 Excavation depth 80 cm

**Attention:**  
**Exact measurements may vary;**  
**for all installation dimensions refer to current assembly instructions.**  
 Technical changes reserved.

**Technical information**

Equipment made of non-impregnated mountain larch

**Core-free**

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

**Tongue and groove**

Tongue and groove planks made of 4 cm solid wood, highly resilient, no trickling of dust / sand, protection against direct rain

**Laminated wood beams**

Laminated wood beams made of non-impregnated larch, glued according to EN 14080:2013; for very large timber cross-sections; comparatively low shrinkage, almost completely free of cracks

**Hardwood rungs**

Climbing rungs made of hardwood (ash)  $\varnothing 4.2$  cm, milled and mortised, secured against twisting, easy to grip and not cold for children to touch

**Adjustable**

Adjustable two-piece bolt connection, easy to maintain, no projecting threads

**Ground anchor**

All parts used for anchoring to the ground are made of hot-dip galvanised steel or stainless steel

**For more detailed explanation of the quality characteristics see price list.**

Professional climbing grips made of a mixture of sand-synthetic resin with safe anti-rotation system against unintended twisting of the grips

Completely assembled construction

**Dimensions**

(small deviations possible)

Height with roof	5.70 m
Height without roof	5.00 m
Floor heights	0.50 / 2.00 / 3.00 m
Footprint	2.70 m
Weight	1900 kg
