

# Inspection and maintenance instructions

The combination must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation .....

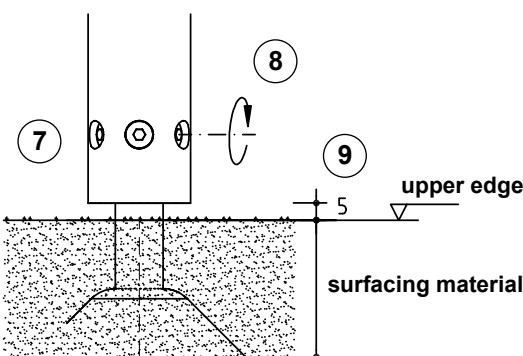

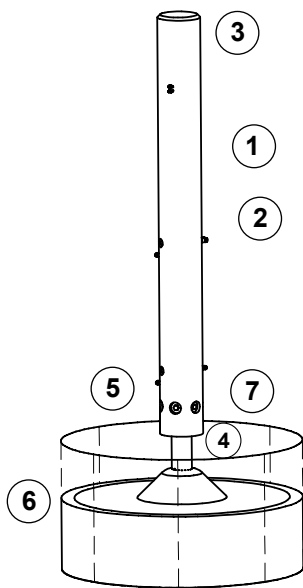

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on, amongst other things:

- location
- use
- frequency of use
- vandalism.

For more details see also our general instructions for maintenance of playgrounds as well as the maintenance instructions for individual equipment.

**Climbing Forest Trunk**  
Best.-Nr. 10.80100 - 10.80112

## Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. Check that all wood connections are tight and retighten if necessary.
3. **Recommendation:** apply paraffin wax to the upper end grain areas once a year, please refer to order No. 0.90100, 1 litre.
4. Likewise, paint the undersides of the trunks, as described in point 3.

## Structural stability

5. The condition of the wood should be inspected for wood-destroying fungi by qualified personnel using the appropriate test instrument twice a year. Dig around the trunks down to the foundation to carry this out.
6. Check steel feet for corrosion.
7. Check connection between steel feet and trunk for tight fit. If necessary, swing the trunk by climbing on them and moving the attachments (ropes, nets, etc.).
8. Retighten the M16 machine screw with a torque wrench (tightening torque 90 Nm).
9. Check the surfacing material (wood chips, sand or similar) under the trunks. The distance between the upper edge of the surfacing material and the lower edge of the trunks must be maintained at 5 cm.

**Attention**  
The maintenance intervals must be strictly adhered to!

Special notes (e. g. for repairs):

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by ..... Date .....
