

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

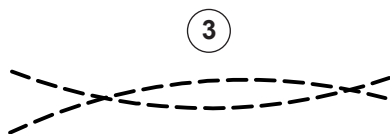

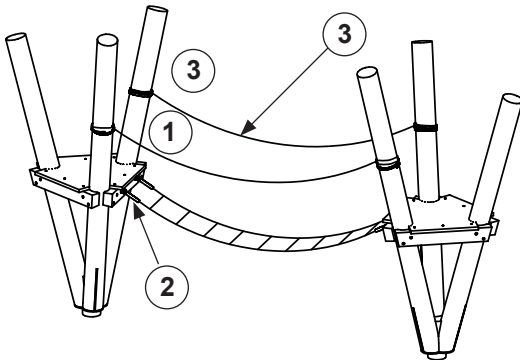

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Wobbly Bridge
between Triangular Platforms
Order No. 3.69833

Ropes

1. Check for wear and tear, especially around the staples used to attach the handrail ropes. If the steel reinforcement is damaged it is imperative it be replaced.
2. Check that access ropes are connected firmly to triangular platform, re-tension if necessary.
3. Check that the staples holding the ropes are connected firmly.

Important!

It should not be possible to form loops with the handrail ropes.

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:

..... Date
